The Way to Reach

The people that buy, selland exchange is through The WORLD WANT AD DEPARTMENT.

There is a Reason,

Because it reaches the people early in the morning when they most want the paper.

Because people read the morning paper before shope ping time and all things of interest are fresh in their HITTIDIA.

Because the best of advertisers use the morning paper for reason of its pulling DOWET.

Direct O'Rourke has not as yet the New 'York Oil company Leen able to do snything with the B. H. Jones hale on the north Peaver place, northwest 22-29-1 elst. He is of the aminon, however, that he will be able to save the hole, but after a great deal of work. O'Rourke has two strings of tools and some w kreat deal of work. O'Rourke has two strings of tools and some collapsed casing in the hele. The trouble came as a result of trouble in mudding the 1,30-foot gas sand, which was partly done by a conservation official. At the present time he is trying to set a line on the castur.

The Kny & Kiewa well on the J. R. Smith place, northeast 6-28-1 east, was underreaming to get the 12-12-inch casing down by a gas strike. They are just above the 1,000-foot mark and lave been making good progress. They expect to set 10-inch casing for a considerable distance in the wait. This hole has been making good progress and they are trying to make every preparation to handle the deep gas strikes as quickly and easily as possible so that they will not be delayed there.
